

## Investment Objectives

The objective of the Sub-Fund is to provide positive returns over the short term, through the selection of a portfolio of fixed income asset classes, markets and fixed income financial instruments offering an attractive yield considering the issuer's credit risk.

## Market Comment

In June, political instability in France caused some uncertainties in the bond market. However, the market remained resilient and showed slightly positive performance. The monthly carry was somewhat limited by the slight increase in European credit spreads.

In this context, the class I (EUR) share of the **Dynasty Chahine Capital High Yield 2028** fund delivered a performance of **-0.1%** in June. This brings the performance since the inception on 3 April 2023 to **+10.2%**.

During this month, due to governance opacity, we sold our positions in **Eurofins 6.75% Perp (Call 2028)**.

The average yield to maturity of the fund is **5.0%**. The average credit sensitivity is **3.1**, and the average rating is **BB**. The fund is invested through **70** positions.

AUM: 15,2 M€
